1. TRADE NAME

STABILOaquacolor®

2. ARTICLE NUMBER

1612 - 1624 - 1636 -

3. SUPPLIER DETAILS

Schwan-STABILO Schwanhaeusser GmbH & Co.

Schwanweg 1, D-90562 Heroldsberg

Telephone No. : +49 (0)911 567-1225 (Monday – Friday 9:00 a.m. to 4:00 p.m.)

Emergency Telephone No. : +49 (0)911 567-4575 or +49 (0)911 398 24 51

4. PHYSICAL AND SAFETY DATA

Wood-cased, aquarellable coloured leads, based on a self-emulsifying wax combination, with soft application. Prepared for creative fun in painting. Diameter of the lead appr. 2.8 mm. Completely lacquered in the shade of the lead. Cardboard or metal boxes with 12, 24 and 36 colours.

When stored and used properly, no hazardous reactions can be expected. In case of fire, carbon monoxide (CO), carbon dioxide (CO₂) and with some colours nitric oxides (NO_x) will be set free as thermal decomposition products.

When not used properly, the product may stain the skin, mucous membranes or clothing and fabrics. In some materials, the stain might be permanent.

The light-fastness of the colours is different, painting may fade, when exposed to sunlight or direct light. Cf. individual data. The best storage conditions are at room temperature (22 °C) and with controlled humidity (65 % rH). The temperature should not exceed - 5 to + 40 °C.

In case of contact with the eyes, rinse out open eye thoroughly under running water for several minutes. If complaints persist, contact an ophthalmologist.

Based on the Regulation (EC) No. 1907/2006 („REACH“), this commercial product is not a hazardous substance, a hazardous mixture or a hazardous substance in an article. Therefore a Safety Data Sheet is not required according to article 31 of the REACH Regulation.

5. TRANSPORT INFORMATION

Not classified as dangerous goods with respect to the transport regulations.

6. ECOLOGICAL INFORMATION / DISPOSAL CONSIDERATIONS

The product may be added to the household waste in small quantities. Larger quantities are to be disposed of under compliance with local public authority regulations, e.g. at a suitable waste disposal site or incinerator.

The raw-materials, used in the pencil and in the coating, do not have environmental consequences, as they are sufficiently adsorbed in the activated sludge of sewage works and eliminated from the water. The pigments used are not soluble in water. Wood is a natural re-growing materials from managed plantations.

8. OTHER INFORMATION

The information herein is based on our present state of knowledge and on data considered to be accurate as of the date of preparation of this Product Information and is intended to describe our products from the point of view of safety requirements. However, no warranty of representation expressed or implied is made as to the accuracy or completeness of the foregoing data and safety information. The user assumes all liability for any damage or injury resulting from the abnormal use from any failure to adhere to recommended practises or from any hazard inherent in the nature of the product. The article and its packaging materials contain no substances included on the candidate list (date 19 Dec 2012) according to article 59 (1,10) of Regulation (EC) No. 1907/2006 (REACH) in a concentration above 0,1% weight by weight.
