

# Product information

1. **Product description:** LYRA FERBY®
2. **Article no.:**  
**3610001-371:** untreated, 31 different colours à 12 pcs in a cardboard box  
**3620001-371:** coated, 31 different colours à 12 pcs in a cardboard box  
**1810101:** graphite pencil, lead intensity B à 12 Stück im Kartonetui
3. **Product type:** three-plane thick core crayon
4. **Packaging:**  
**3611060:** 6 colours in a cardboard box  
**3611120:** 12 colours in a cardboard box  
**3613360:** 36 pens in a plastic quiver  
**3612960:** 96 pens in a wooden display  
**3611063:** 6 neon colours in a cardboard box  
**1813360:** 36 pens in a plastic quiver  
**3621060:** 6 colours in a cardboard box  
**3621120:** 12 colours in a cardboard box  
**3623180:** 18 colours in a round screw-in plastic box  
**3623360:** 36 pens in a plastic quiver  
**3622960:** 96 pens in a wooden display  
**3621063:** 6 neon colours in a cardboard box
5. **Ingredients:**  
Crayon: Pigments, binders, fillers, antiblocking agents  
Graphite pencil: Clay, graphite, wax
6. **General attributes:**  
Pen length: 12cm  
Lead diameter: 6,25mm  
Three-plane LYRA comfort-grip  
High concentration of very lightfast pigments  
Indelible and watertight  
Closed pen tail
7. **Application:**
  - 7.1 **Application area:** Kindergarten, preschool, school, hobby
  - 7.2 **Applicable to:** Paper, carton, wood, metal, plastics, stone, textiles
  - 7.3 **Application advice:** Colours are well mixable among each other. A finishing varnish is unnecessary. Please change the pencil sharpener after 24 completely sharpened pencils. Otherwise you are going to risk an increased amount of bursting pens!
8. **Special features:** Because of the extra-thick lead LYRA FERBY® are extremely break-proof and economical. The high concentration of very lightfast pigments allows an intensive application.  
**Three-plane LYRA comfort-grip:** The „rounded down triangular“ offers much more contact surface for the fingers than round or hexagonal pens. Thus the pressure on the fingers decreases and less muscular strength is required, because the larger contact surface enhances the slip resistance. Particularly small hands, sinistrals and users with a disorganisation in their fine motor skills benefit from the ergonomic design and are now able to paint considerably longer without any signs of fatigue.  
The pen length of 12cm prevents small hands from a pen tilting backwards.
9. **Minimum durability/Storage advice:** Dry storage. Unlimited durable.
10. **Batch code:**
11. **Environment, consumer protection, disposal:**
  - CE-compliant, fit the Law of Materials and Articles and the EN 71
  - Awarded with „Spiel gut“
  - Do not contain any toxicologically critical heavy metals or heavy metal connections
  - Coated LYRA FERBY® are saliva fast and resistant against perspiration. Therefore they are particularly suitable for young children.

- Disposal with domestic waste.
