

Introducing the world's first fully-automated desktop laminator

The GBC Foton 30 Automatic A3 Laminator

Perfect lamination in 4 easy steps:

1. Load - no feeding pouches

Load the cartridge by dropping it in - no pouches. Laminate up to 30 pages at a time

2. Press & Go - no warm up time

Walk away as it runs. Automatically straightens all pages, detects film thickness, controls spacing

3. Reduce lamination time by 96%

With your laminating taken care of, you can use your valuable time elsewhere

4. Done - perfect every time

Return to a tidy stack of laminated pages which have been trimmed to perfect precision docs
